EEC Group is one of the leading full turnkey service provider in the POWER & ENERGY sector in the Middle East and Africa with over 25 years of experience serving top-class multi-national customers.

(EETC, Madkour, Siemens, Enppi, Schneider Electric and etc.) for their NETWORKS.

EEC Group is authorized by the Egyptian Electricity Transmission Company (**EETC**) to design, manufacture and install high voltage transmission towers from **66KV** to **500KV**. We have the capability to fabricate and hot-dip galvanize the full range.

High voltage transmission towers

- Single, double, quad circuits
- Single and double conductors
- Suspension, tension, angle, anchor, terminal, crossing

Poles & gantries for substations

Rural Electricity towers

Our **Steel Tower Production** is according to international standards and specifications, on a manufacturing complex spanning 140,000M² using the state of the art CNC lines producing the highest quality towers and fully hot-dip galvanized in our facilities.

EEC Group Over 45 years of progress
