G r o u p

Since 1975

EEC has over 40 years of experience in engineering and construction working in partnership with prestigious customers to deliver their state-of-the-art facilities.

We focus primarily on large industrial and commercial projects although we have carried out numerous residential projects for our customers due to our reputation and quality.

We are present throughout the entire engineering lifecycle from architectural and engineering design, project management, civil works, infrastructure, steel works, electromechanical and finishing.

We are registered as a Grade 1 construction company at the Egyptian Federation for Construction & Building Contractors.

EEC understands the complexities & demands of today's projects. We have invested heavily to ensure:

- Our experienced teams are up-to-date in the latest project management and technical skills
- Our strong relationship with our suppliers & subcontractors gives us the agility and responsiveness to mobilize, scale and deliver on all types of projects within the timescales demanded.
- Our equipment & tools are of the highest quality, and fit-for-purpose.

Our construction services are supported by our manufacturing facilities through the supply of various steel structures (beams, columns, fencing, handrails, etc) roof and wall cladding materials (corrugations and sandwich panels).

**EEC Group was founded in 1975 as a construction company.**

**Today we are positioned uniquely in Egypt and the region, capable of delivering integrated value to our customers on a turnkey basis through our engineering, construction and fabrication capabilities with over 1500 Professionals.**

**We operate an Integrated Management System for ISO9001, ISO14001 and OHSAS18001.**

**Engineering Enterprises  
for Civil & Steel Constructions S.A.E**
